CHINA · TENGLONG MAGNETIC PUMP

STAINLESS STEEL SELF-PRIMING PUMP

ZX Series

Stainless steel magnetic pump

Use

City environmental protection, construction, fire, chemical, pharmaceutical, printing and dyeing, brewing, electric power, papermaking, electroplating, petroleum, mining, equipment cooling, tanker unloading etc..

Design feature

ZX self suction pump is horizontal self-priming centrifugal pump. Compared with other types of self suction centrifugal pumps, the type pump has the advantages of simple structure, reliable work, no trouble, long working time and convenient maintenance and use. Small size, light weight, high efficiency and special improvement in design. Compared with the same caliber pump, it has large displacement and high performance.

Model meaning

50 ZX 20 - 30

ZX	Stainless steel self-priming pump
50	Inlet diameter 50 mm
20	Flow of 20 cubic meters per hour
30	Head 30 m

Performance data

ZX Series
